

# DENTON MUNICIPAL ELECTRIC

## Rebates

Denton Municipal Electric (DME) rewards its customers who perform qualifying energy efficiency and conservation improvements. The Program is to help reduce energy demand and consumption by promoting energy conservation, thereby reducing the utility bills of City customers, reducing the peak load of the City's electric system, and reducing emissions in the state. The following rebates are available through Sustainable Denton and DME.

### Residential Rebates

Upgrade	Requirement	Incentive
Central HVAC	1.0 – 2.5 Ton Units	\$200
	3.0 – 5.0 Ton Units	\$400
Smart Thermostat	Remote Management Capable	50% up to \$50
Radiant Barrier	> 80% Reflective	20% up to \$300
Attic Insulation	> 49 R-Value	50% up to \$400
Air Duct	Repair & Replacement	30% up to \$200
Solar Screens	On Conditioned Spaced Windows	30% up to \$200
Windows	< 0.29 U-Factor & < 0.22 SHGC	30% up to \$500
Solar Water Heater	Accommodate Family of 4	30% up to \$300
Weatherization Supplies	Do-it-yourself Repairs	50% up to \$50
Electric Vehicle	Request	\$300

### Multi-Family Rebates

Upgrade	Incentive	Cap (not to exceed)
Central HVAC	\$200 per 1.0 – 2.5 Ton Unit \$400 per 3.0 – 5.0 Ton Unit	\$2,400
Smart Thermostats	\$10.00 each	\$200
Attic Insulation	\$0.30 per square foot	\$1,200
Air Ducts	30% of total cost	\$600
Solar Screens	\$3.00 per square foot	\$800
Windows	\$2.00 per square foot	\$1,500

### Solar Rebates

PV ONLY		PV with Battery Storage	
3.0 kW to 5.0 kW	80¢ per AC Watt	3.0 kW to 5.0 kW	\$1.20 per AC Watt
5.1 kW to 10.0 kW	60¢ per AC Watt	5.1 kW to 10.0 kW	90¢ per AC Watt
Above 10.1 kW	40¢ per AC Watt	Above 10.1 kW	60¢ per AC Watt

*For requirements, visit the Distributed Generation Manual*

### Standard Offer Incentive

Upgrade	Peak Reduction	Incentive
Replace Equipment/Motors	50 kW	\$125/kW
Lighting Retrofit Only	50 kW	\$81.25/kW

#### HOW TO APPLY FOR REBATES AND SOLAR INCENTIVE

All customers including residential (single family & multifamily) and commercial are eligible to receive rebates and incentives. To apply for the Solar Incentive, please visit [www.dmepower.com](http://www.dmepower.com), call: (940) 349-7595 or email [solar@cityofdenton.com](mailto:solar@cityofdenton.com). Energy efficiency rebate applicants call (940) 349-7733 or email [rebates@cityofdenton.com](mailto:rebates@cityofdenton.com).

## Energy Efficiency Audits

#### WHY YOUR BUILDING NEEDS AN ENERGY AUDIT?

According to the Department of Energy, much of that energy is wasted through inefficiencies found in buildings, which can include too little insulation, air and duct leaks and much more. By taking steps to address these inefficiencies, you can make your building more energy efficient and save on your energy bill, too.

#### REBATES AND RESOURCES

**In-Home Energy Audits:** Free to all DME customers  
Energy audits are performed by the City of Denton

**Engineering Audit:** 50% and up to \$5000 incentive for large commercial customers  
Business hires 3rd party engineer firm
